

## ICMI Archives

The ICMI Archives are part of the IMU Archives kept in Helsinki in the Central Archives of Helsinki University. They consist of 7 folders (14 A, B, C, D, E, F, G), each of which contains several files. There are three typologies of the materials conserved: letters, which are the greatest part of the archives; books; and documents, ordered chronologically. What follows is a brief description. The more detailed description will be inserted as it becomes available.
